

Pick and Choose

Students form groups of four. Give one set of Bible Book Cards to each group. Volunteer in group shuffles cards well, gives each student seven cards and then stacks remaining cards facedown in middle of group. Students organize their cards in Bible book order, referring to contents page in their Bibles. ***Each student's goal is to collect three sets of two consecutive book cards*** (for example, Genesis and Exodus, Joshua and Judges, Psalms and Proverbs).

First player takes a card from stack. If it is a card he or she needs, player keeps the card and discards a card he or she does not need, placing the discard faceup next to the stack. Next player may take either the discarded card or a new card from the stack. Play continues until one student has collected three sets of two consecutive books. Reshuffle and play again as time allows.
