

Does It Really Matter?

Does it really matter if we stay sexually pure? What about dabbling a bit here and there? Consider each of the following temptations:

- Staring at members of the opposite sex and making sexual comments
- Lusting after someone or fantasizing about them sexually
- Looking at pornography on television, in magazines, or on the Internet
- Telling dirty jokes
- Touching others sexually

After each temptation, discuss the following questions with your group:

- What, if anything, might happen if I do this once?
- What, if anything, might happen if I do this several times?
- Who might get hurt if I try this?
